5

Before we start we need to ensure that the user has:

- ⇒ the ability to use basic computer or “smart” device functions,
- ⇒ basic skills of web navigation,
- ⇒ an e-mail account.

e-commerce/online shopping platforms for e-shopping with similar use:

⇒ Ebay

⇒ AliExpress

⇒ ASOS

Internet safety:

- ⇒ Keep your passwords to web applications at a secure place.
- ⇒ Never give personal data information to strangers.
- ⇒ Choose reliable product sellers, after being informed for their credibility, based on both their costumers' reviews and the companies through which the purchase is made (e.g. Amazon).

5

On the following page, under **Create account**, enter:

the **name** you want to appear in your Amazon account

your **e-mail**

choose and type your secret **password**

re-enter secret **password**

Click on **Create your Amazon account** to create your new account

For your own protection follow good practices of setting a secret password, which consist of upper-case and lower-case letters, numbers and symbols!

6

6

As shown in the screen below, the web browser application (e.g. Chrome) will ask you if you want to save your Amazon password!

Attention!

Avoid saving your web accounts passwords in the web browser application (e.g. Chrome)!

7

At this final step, you have already created your own Amazon account and you can now proceed to *search, save for later, order, purchase* or just proceed to “screen shopping” instead of “window shopping”!

7

To exit your account click on **Sign Out** from **Account & Lists** drop-down menu, as shown in the picture below.
